

TEAM ID : PNT2022TMID11872

PROJECT NAME : AI-powered Nutrition Analyzer for Fitness Enthusiasts

Create HTML Pages

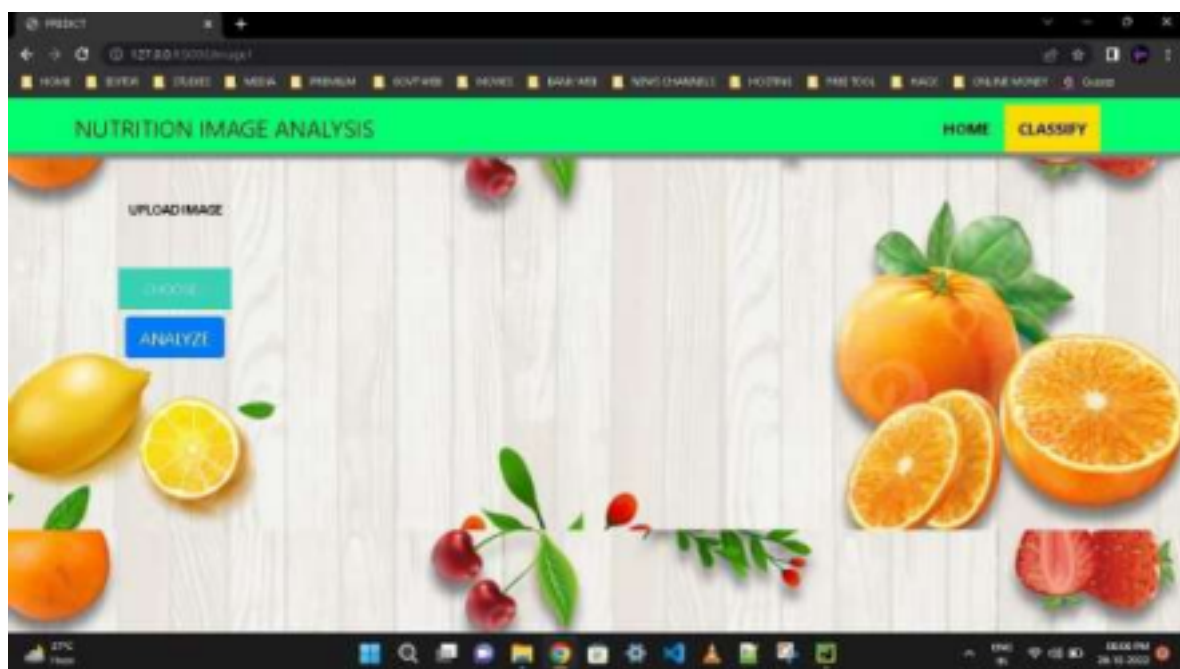

- We use HTML to create the front-end part of the web page.
- Here, we have created 3 HTML pages- home.html, image.html, imageprediction.html, and 0.html.
- home.html displays the home page.
- image.html is used for uploading the image
- imageprediction.html will showcase the output
- 0.html is to showcase the result. It tells the action to be performed on imageprediction.html while showcasing the result.
- We also use JavaScript-main.js and CSS-main.css to enhance our functionality and view of HTML pages.

Home.html looks like this

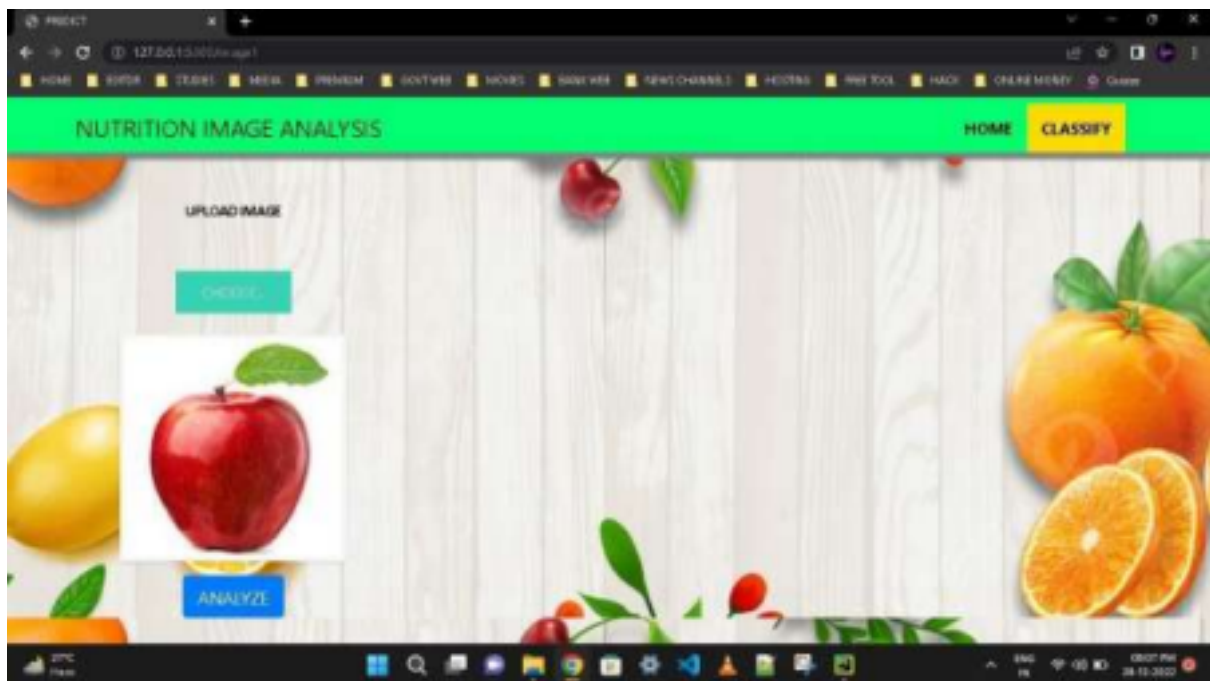

image.html

hfU7RITION IMA6E ANALY5FS **HOME** **CLASSIFY**

Imageprediction.html
